A one-of-a-kind beauty, enrapturing,
that steals your breath away, leaving you
speechless. An extraordinary idea as the only
possible pathway, to get to where you want,
to explore, to go beyond.
The freedom of embracing the unknown, that
you know you'll love as a part of your very own
story. A thought that provokes your mind and
then inspires you to aim for the impossible,
making mistakes, yet being brave.
A magic je ne sais quoi that enchants and
intrigues you, moving you to feel more and to
sense uniqueness.

The choice to risk it all, the one that makes you
go for it, to impress yourself and all those who
are worth it.

Welcome to Azimut.

AZIMUT.
DARE TO AMAZE.

THE DESIGN & LIFESTYLE ON BOARD

FLY 82, CHASING HORIZONS

The Fly 82 opens the door to a new dimension of living at sea, where dynamic elegance meets the enveloping comfort of a yacht designed to excite. With exteriors by Alberto Mancini and interiors by Fabio Fantolino, the new flagship is the first model in the Series to incorporate the Deck2Deck™ system, transforming the cockpit terrace into a seamless extension of the main deck. Each area is designed to offer both freedom and privacy, surprising guests with generous volumes, airy environments and breathtaking views of the sea, framed by expansive panoramic windows. Fly 82. A style icon that celebrates the beauty of the sea in all its forms.

Welcome aboard, ladies and gentlemen.

Let us begin the tour.

Exterior lines sculpted and precisely defined, as if shaped by the wind, appearing to be in motion even when the Fly 82 rests on the sea: the powerful signature of Alberto Mancini and the unmistakable Azimut aesthetic.

OPEN-SPACE LIVING, ON TOP OF THE WORLD

The flybridge is a unique open- air zone, presenting three separate but seamless habitats to be enjoyed with heightened privacy. Sunbathing in proximity of the wheelhouse forward, lunching or barbecuing with the informal luxe of the American Bar, and socializing aft on the panoramic lounge, are all the experiences that the flybridge of the Fly 82 offers at a whole new level.

BEYOND BOUNDARIES

THE BEACH COCKPIT: EMBRACING THE SEA

BETWEEN LINEARITY AND SOFTNESS

The interiors designed by Fabio Fantolino unfold through a refined play of contrasts: welcoming and resistant materials, warm and cool, matte and reflective. Some elements take center stage, while others sustain them with discretion, never altering the hierarchy, giving life to an unprecedented balance that blends elegance and character.

The partition in ribbed glass with a bronze lacquered back, rhythmically accented by wooden rods, becomes the backdrop for a round marble table supported by a sculptural base in glossy lacquer. A suspension lamp with cylindrical elements in opaline glass and a glossy terracotta finish diffuses a soft light that envelops the setting in an atmosphere of sophisticated elegance.

A GAZE TOWARDS THE SEA

Let us discover the guest accomodations.

Shall we?

AN ENHANCED SENSE OF SUITE-NESS

The full-beam Owner's Suite aft makes the most of its generous width. The focal point is the full-height nubuck headboard that elegantly frames the bed. A touch of color is introduced by a custom lamp in fabric and painted metal, suspended from the ceiling and designed to create a refined asymmetry.

In the owner's suite, every detail is designed for everyday comfort, including the concealed vanity that blends seamlessly into the elegance of the furnishings.

YOUR WARM RETREAT

The owner's suite features a private bathroom defined by natural wood surfaces and a stone top, illuminated by soft grazing light that enhances textures and depth.

REFINED COMFORT

The lower deck also features two beautifully appointed guest cabins. The VIP cabin, located at the bow, stands out with its organic design, seamlessly adapting to the boat's geometries and curves.

The guest cabin features twin beds and offers a bright, welcoming atmosphere. Large windows, an en suite bathroom, and refined finishes enhance the space, ensuring an exceptional level of comfort on board.

The Fly 82 is equipped with cutting-edge technology, including a full suite of Garmin electronics and integrated Volvo IPS controls, making it easier than ever to check numbers, alerts and settings related to the engines, while reducing dashboard clutter.

HELM & TECHNOLOGY

03

HER MAIN TECHNICAL FEATURES

The beauty of the Fly 82 is not solely a matter of exterior and interior design elements that combine to perfectly play out Azimut's essence. Her beauty is also about discovering the technological advancements and special components that contribute to making her truly unique and highly innovative.

ACTIVE TRIM CONTROL

Automated interceptors optimize the trim at every speed to maintain ideal hydrodynamics for performance and efficiency, at the same time negating any lateral imbalance due to sidewinds or weight distribution. With the pilot's peace of mind assured, the driving experience is simpler and more enjoyable.

JOYSTICK DRIVING

The Joystick acts as an analog for the yacht, offering intuitive, one-handed control in every situation. When the yacht is stopped, moving the Joystick forward or back, side to side, and twisting clockwise or counter-clockwise activates the engines to mimic that motion. It's the easiest way to pull off precise maneuvers. When Joystick Driving is activated, the autopilot is immediately engaged. For easy course correction, the driver may briefly twist the Joystick for 1 degree in that direction or twist and hold for 10 degrees. The Autopilot keeps a forward course after the Joystick is released.

INTEGRATED CONTROL AND MONITORING SYSTEM

The custom-installed Garmin electronics have been integrated to control and monitor every onboard system: from engines and alarms, to bilge and water discharge pumps, tank levels and engine room ventilation, right through to the sound system and the air conditioning units. The system can be accessed on board from both the interior and exterior helm stations and, with the mobile app, remotely from a tablet or smartphone.

UNI ISO 8666
The performance described applies to a vessel with standard configuration (standard equipment installed) and a clean hull, propellers, and rudder. It is also noted that the performance described was recorded under favourable sea and wind conditions (Beaufort scale index 1, Douglas scale index 1); different and worse sea conditions could significantly impact performance.

CE MARK
Given the continual evolution of technology, Azimut | Benetti S.p.A reserves the right to modify the technical specifications on its vessels at any time and without prior notice.

ABOUT AZIMUT

A FAMILY-MADE COMPANY CULTURE

An immense and personal passion for the sea. A clear and forward-facing attitude. A strong and relentless work ethic. Since 1969, Paolo Vitelli, the creative visionary founder and businessman behind Azimut, has been set on challenging the industry's status quo with a daring desire: bring to life an unexpected nautical experience, through yachts built to combine alluring aesthetics with construction expertise and impeccable technology.

An audacious mindset that has, over time, surprised and captivated the yachting sector, transforming Azimut into a bold and recognizable benchmark, and laying the foundation for the birth of the largest megayacht builder in the world, the Azimut | Benetti Group.

The international and management-based standing of the company today, is deeply nourished by the solid and memorable family heritage that has distinguished it from the beginning. A historically pioneering vision that enables it to continue thriving day after day, through ingenious inventions and long-term goals that look to the future with Paolo's daughter, Giovanna Vitelli.

A SUSTAINABLE VISION TODAY, FOR TOMORROW

An avant-garde vision and a strong emotional appeal have shaped the history of Azimut as a leader in the field of nautical innovation as well as its commitment to the creation of a sustainable-oriented and attentive company culture today.

An ambitious and personal touch that has allowed Azimut to grow and evolve on both levels, embracing the challenge of a future nurtured by an eco-conscious approach to boat construction and by an authentic focus and responsibility on human well-being.

OUR ECO-YACHTING PHILOSOPHY

The Azimut I Benetti Group has made tangible investments to guide the Technical as well as the R&D departments toward the construction of yachts with a diminished environmental impact. Its main areas of intervention have focused on significantly lowering fuel consumption and CO2 emissions through the development of highly efficient hull designs, innovative propulsion systems and an extensive use of carbon fiber to decrease yacht weight.

A SAFE AND HEALTHY WORK ENVIRONMENT

The forerunning shipyard of Avigliana was the first of the company's Italian shipyards to obtain the ISO 45001 certification in 2011, attesting its rigorous abidance to all occupational health and safety requirements. Recognized as the most technologically-advanced shipyard in Europe, it has also led the nautical sector revolution in terms of being among the earliest adopters of the vacuum infusion process to drive resin into a laminate, avoiding styrene emissions and therefore guaranteeing its precious workers a healthier setting.

As of 2013, all the other Italian production sites have adapted to meet the necessary requirements to obtain the ISO 45001 certification.

A GLOBALLY-CONNECTED DEALER AND SERVICE NETWORK

6 SHIPYARDS

6 DIRECT OFFICES

138 OFFICIAL DEALERS

80 COUNTRIES

The highly widespread commercial network put in place by Azimut Yachts, allows the company to offer a continuous presence to its ship owners, concretely curating their demands by meeting their most specific needs.

THE LARGEST PRIVATE GROUP IN THE YACHTING WORLD

Azimut is part of the Azimut | Benetti Group, the biggest private player and shipbuilder in the nautical sector today. The Vitelli family, the founder and majority shareholder of the company, has been leading the way for over fifty years now, continuing to innovate through the Group’s main yacht brands, Azimut and Benetti, while developing a variety of service brands to cater to the different demands of ship owners worldwide.
