05	ABOUT AZIMUT	P50

A one-of-a-kind beauty, enrapturing,
that steals your breath away, leaving you
speechless. An extraordinary idea as the only
possible pathway, to get to where you want,
to explore, to go beyond.
The freedom of embracing the unknown, that
you know you'll love as a part of your very own
story. A thought that provokes your mind and
then inspires you to aim for the impossible,
making mistakes, yet being brave.
A magic je ne sais quoi that enchants and
intrigues you, moving you to feel more and to
sense uniqueness.

The choice to risk it all, the one that makes you
go for it, to impress yourself and all those who
are worth it.

Welcome to Azimut.

AZIMUT.
DARE TO AMAZE.

THE DESIGN & LIFESTYLE ON BOARD

ULTRAMODERN SOUL AND SAVOIR-FAIRE

The 24-meter beauty of the Series, Azimut S8, is a tech-savvy sport yacht elevated by environmentally-responsible etiquette. Her wind-drawn design and avant-garde attitude come to life through a carbon fiber soul, epitomizing absolute performance and silence while minimizing fuel consumption beyond the expectations of the category. An attractive and generous ambience permeates the lifestyle onboard, inviting guests to enjoy a liberating relationship with the sea, marked by relaxation, recreation and responsibility. Enjoy the progressive, responsible mindset of the S8.

[Exposed carbon fiber accents play the role of tendons for the S8's elegant musculature.]

Welcome aboard, ladies and gentlemen.

Let us begin the tour.

01 | THE DESIGN & LIFESTYLE ON BOARD

PURE AVANT-GARDE

The exterior lines appear to be drawn onto the S8 by the wind. Sporty and fluid, they reach from bow to stern, elongating the clean hull volumes together with long windows and the sculptural use of cappings above the bulwarks. Her curvaceous upper body is wrapped in carbon fiber sinews, lightening the profile and emphasizing the wide glazed surfaces along her profile.

FREE TO CHARME

BETWEEN SKY AND SEA

The exterior helm takes the driving experience to the next level, with a truly panoramic view and a complete living area.

NO BORDERS, JUST HORIZONS

[The bow lounge is broken up into an archipelago of cushioned capes, centered on an extendable cocktail table. With optional shade from the carbon fiber-supported bimini, it's a pleasant place to spend any time of day. From an al fresco light breakfast through sunbathing and lounging to sunset cocktails, guests are drawn to this front porch on the sea.]

[The variety of shelter and shade available for sunbathers ensures even large gatherings are able to spread out comfortably in a spot just right for each individual.]

A SURPRISING BREAK AT THE BOW

The gracefully aerodynamic design is strongest toward the bow, where all the lines come together to form an arrowhead. The handrail capping is gently curved, perfectly epitomizing the marriage between organic and sleek shapes.

A LIBERATED WAY OF LIFE

The continuity between the external and internal lounging area gives the main deck a unique and fluid feeling, relaxing and liberating every moment of the onboard lifestyle from casual lounging to formal dining.

[The sliding door disappears out of sight, uniting the indoor and outdoor environments into one free-flowing platform on the sea.]

AT THE WATERS EDGE

The transom platform folds out to offer a private pier out over the waves, with plenty of room for freestanding furniture.

YOUR COZY RETREAT AT THE SEA

The cozy segment of the main deck is staged as a lounge. It's the perfect place to take refuge from chilly nights and enjoy a good film, but during the day, it joins a continuum that reaches flush all the way to the cockpit. Large windows ensure the fidelity of the connection to nature regardless.

[The dedicated dining is immersed in the natural light, situated under the double windscreen and surrounded by glazed surfaces. Thanks to its recessed position, the arrangement is well out of the way of guest flows.]

Now, let us discover the guest accommodations.

Shall we?

[The master suite is full beam amidships, with a private bathroom, plenty of storage and full-height walking room all the way around.]

[Guests are surprised by the unprecedented layout, which offers four cabins, each with a private en-suite bathroom. It's possible through the advanced triple pod propulsion system and the more compact engine room implied.]

DESIGNED
TO WELCOME

02

HER MAIN TECHNICAL FEATURES

The beauty of the S8 is not solely a matter of exterior and interior design elements that combine to perfectly play out Azimut's essence. Her beauty is also about discovering the technological advancements and special components that contribute to making her truly unique and highly innovative.

LOW EMISSION YACHT

TRIPLE POD PROPULSION COMBINED WITH CARBON FIBER

The adoption of triple Pod propulsion, combined with the optimization of the water lines and the extensive use of carbon fiber, reduces fuel consumption and CO₂ emissions by 20 to 30%* in the main speed range.

*compared to vessels of the same weight and size with a traditional hard-chine hull and shaft line propulsion

CARBON-TECH GENERATION

Azimut's pioneering use of carbon fiber lamination goes beyond pure performance. The Carbon Tech Generation offers expanded volumes on board, while maintaining excellent dynamic stability and perfect handling. Preserving the yacht's low center of gravity, the carbon fiber was focused on the upper parts of the yacht, lightening the laminated components by up to 30% and reducing the natural roll momentum up to 15%.

ACTIVE TRIM CONTROL

Automated interceptors optimize the trim at every speed to maintain ideal hydrodynamics for performance and efficiency, at the same time negating any lateral imbalance due to sidewinds or weight distribution. With the pilot's peace of mind assured, the driving experience is simpler and more enjoyable.

INTEGRATED CONTROL AND MONITORING SYSTEM

The custom-installed Garmin electronics have been integrated to control and monitor every onboard system: from engines and alarms, to bilge and water discharge pumps, tank levels and engine room ventilation, right through to the sound system and the air conditioning units. The system can be accessed on board from both the interior and exterior helm stations and, with the mobile app, remotely from a tablet or smartphone.

JOYSTICK DRIVING

The Joystick acts as an analog for the yacht, offering intuitive, one-handed control in every situation. When the yacht is stopped, moving the Joystick forward or back, side to side, and twisting clockwise or counter-clockwise activates the engines to mimic that motion. It's the easiest way to pull off precise maneuvers. When Joystick Driving is activated, the autopilot is immediately engaged. For easy course correction, the driver may briefly twist the Joystick for 1 degree in that direction or twist and hold for 10 degrees. The Autopilot keeps a forward course after the Joystick is released.

HTS HIGH TECHNICAL STANDARD DECLARATION

This yacht’s design and engineering meet the highest standards for production recreational vessels. Azimut Yachts issues a declaration of the premium materials, advanced technology and rigorous testing procedures.

Please consult your dealer for the latest specifications.

UNI ISO 8666
The performance described applies to a vessel with standard configuration (standard equipment installed) and a clean hull, propellers, and rudder. It is also noted that the performance described was recorded under favourable sea and wind conditions (Beaufort scale index 1, Douglas scale index 1); different and worse sea conditions could significantly impact performance.

CE MARK
Given the continual evolution of technology, Azimut | Benetti S.p.A reserves the right to modify the technical specifications on its vessels at any time and without prior notice.

THE SERIES S

AVANT-GARDE INTELLIGENCE

The seductively sportive Azimut S Series is the market's pinnacle of technological advancement and performance. Sensually streamlined exteriors make for a fiercely dynamic aesthetic, combining with innovative propulsion systems and last generation hulls to deliver a uniquely sporty experience. Daringly fusing high speed and extreme manoeuvrability with the lowest consumption of fuel achievable in its class, the S Series also makes extensive use of carbon fiber on its yachts to grant vast volumes without impacting on weight, therefore offering unanticipated ample living spaces.

Embrace the beauty of avant-garde intelligence.

ABOUT AZIMUT

A FAMILY-MADE COMPANY CULTURE

An immense and personal passion for the sea. A clear and forward-facing attitude. A strong and relentless work ethic. Since 1969, Paolo Vitelli, the creative visionary founder and businessman behind Azimut, has been set on challenging the industry's status quo with a daring desire: bring to life an unexpected nautical experience, through yachts built to combine alluring aesthetics with construction expertise and impeccable technology.

An audacious mindset that has, over time, surprised and captivated the yachting sector, transforming Azimut into a bold and recognizable benchmark, and laying the foundation for the birth of the largest megayacht builder in the world, the Azimut | Benetti Group.

The international and management-based standing of the company today, is deeply nourished by the solid and memorable family heritage that has distinguished it from the beginning. A historically pioneering vision that enables it to continue thriving day after day, through ingenious inventions and long-term goals that look to the future with Paolo's daughter, Giovanna Vitelli.

A SUSTAINABLE VISION TODAY, FOR TOMORROW

An avant-garde vision and a strong emotional appeal have shaped the history of Azimut as a leader in the field of nautical innovation as well as its commitment to the creation of a sustainable-oriented and attentive company culture today.

An ambitious and personal touch that has allowed Azimut to grow and evolve on both levels, embracing the challenge of a future nurtured by an eco-conscious approach to boat construction and by an authentic focus and responsibility on human well-being.

OUR ECO-YACHTING PHILOSOPHY

The Azimut I Benetti Group has made tangible investments to guide the Technical as well as the R&D departments toward the construction of yachts with a diminished environmental impact. Its main areas of intervention have focused on significantly lowering fuel consumption and CO2 emissions through the development of highly efficient hull designs, innovative propulsion systems and an extensive use of carbon fiber to decrease yacht weight.

A SAFE AND HEALTHY WORK ENVIRONMENT

The forerunning shipyard of Avigliana was the first of the company's Italian shipyards to obtain the ISO 45001 certification in 2011, attesting its rigorous abidance to all occupational health and safety requirements. Recognized as the most technologically-advanced shipyard in Europe, it has also led the nautical sector revolution in terms of being among the earliest adopters of the vacuum infusion process to drive resin into a laminate, avoiding styrene emissions and therefore guaranteeing its precious workers a healthier setting.

As of 2013, all the other Italian production sites have adapted to meet the necessary requirements to obtain the ISO 45001 certification.

THE LARGEST PRIVATE GROUP IN THE YACHTING WORLD

Azimut is part of the Azimut | Benetti Group, the biggest private player and shipbuilder in the nautical sector today. The Vitelli family, the founder and majority shareholder of the company, has been leading the way for over fifty years now, continuing to innovate through the Group's main yacht brands, Azimut and Benetti, while developing a variety of service brands to cater to the different demands of ship owners worldwide.
